1 Introduction

This package contains a theme for *Beamer*, the theme itself must be referenced as *Cuerna* inside beamer and has four basic colour themes. It requires no additional customization but to set the theme and colour theme with the usual syntax.

2 Usage

A very basic example is presented below, it comprises the title page and a single slide.

```
1 \documentclass{beamer}
2 \usepackage[utf8]{inputenc}
3 \usepackage[T1]{fontenc}
4
5 \usetheme{Cuerna}
6
7 \usecolortheme{default}
8
9 \logo{\includegraphics[width=1.7cm]{bluesimplex.png}}
